

This is a marketing communication. Please refer to the prospectus, supplement and KID/KIID for the Fund, which contain detailed information on the Fund's characteristics and objectives, before making any final investment decisions. All data as at above date, unless otherwise stated. Past performance does not predict future returns.

### Fund ESG Ratings

MSCI ESG Rating™:

Produced by MSCI ESG Research as of 31.12.25.

### SFDR Classification

Please see the fund's [Sustainability-related disclosures](#) and [SFDR Pre-contractual Disclosures](#), available on our website, for more information. [Periodic Reports](#) are also available.

### Fund Profile

#### Benchmark

MSCI AC Asia Pacific ex Japan

#### Investment Objective

An equity fund investing in companies in the Asia Pacific region or deriving at least 50% of their revenues from the region.

#### Investment Case

Focus on profitable companies generating persistently high return on capital over the business cycle. We believe these companies can continue to reinvest cash at these high rates of return, compounding returns over time. Stringent due diligence process to avoid companies that are overhyped or at risk of management or corporate failure.

#### Domicile

Ireland

### Risks

Guinness Best of Asia Fund is an equity fund. Investors should be willing and able to assume the risks of equity investing. The Fund only invests in the Asia region; it is therefore susceptible to the performance of that region, and can be volatile. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement; you may not get back the amount originally invested. For full information on the risks, please refer to the Prospectus, Supplement, and KID/KIID for the fund, which are available on our website.

Fund Approach to Responsible Investment

<sup>2</sup>Cluster munitions, landmines, and biological and chemical weapons.

<sup>3</sup>Companies that generate more than 30% of revenues via thermal coal extraction or thermal coal power generation.

### ESG Integration Summary

ESG analysis is incorporated into investment decision-making on an ongoing basis, accompanied by a detailed review of each company. The review considers the Environmental, Social and Governance risks facing the company, the ways in which management mitigates them and their progress in doing so. The company's business is first assessed for the material risks posed by the industry and by the company's operations. The review consists of company-specific analysis of these material and relevant Environmental and Social risks. Regardless of industry, each company is assessed on carbon risk and employee relations, as well as Governance. Further information is available in the team's Approach to Responsible Investment and ESG paper, available [here](#).

### Fund Weighted Average Carbon Intensity (WACI)\* in tCO<sub>2</sub>e/\$M revenue

The fund's carbon intensity is measured and reported over time.

Source: Guinness Global Investors, CDP; Coverage: 100% (2021, 2024, 2025), 96% (2022), 97% (2023).

\*The Weighted Average Carbon Intensity (WACI) metric is calculated by multiplying the carbon intensity (emissions relative to revenue in millions USD) of each fund holding by its portfolio weight (the value of the holding relative to the total value of the portfolio, excluding cash). Carbon intensity is based on Scope 1 and 2 emissions. Scope 1 emissions are direct greenhouse gas emissions from sources that are owned or controlled by the company. Scope 2 emissions are indirect greenhouse gas emissions from the generation of energy purchased by the company (Reference: GHG Protocol). Coverage refers to the percentage of the carbon intensity data available at the date of publication for underlying fund holdings (as a percentage of total assets excluding cash).

### Stewardship

Stewardship activities form part of the investment process applied by the team. We believe that resourcing our stewardship activities within the investment team itself, with dedicated assistance as required, is the best way to ensure effective stewardship. The investment team's ESG incorporation approach often informs their proxy voting and engagement activity. In a spirit of transparency, we disclose fund-level voting and engagement statistics and case studies for calendar year 2025 below.

### Voting

The investment team make their own voting decisions based on their own research, supported by proxy voting research from Glass Lewis. All voting is undertaken by the investment team, with oversight provided by our Responsible Investment Committee. In order to vote, some markets require shares to be temporarily immobilised from trading until after the shareholder meeting has taken place (referred to as 'share blocking'). Some other markets require a local representative to be hired, under a Power-of-Attorney (POA), to attend the meeting and vote on our behalf. In such instances, it may sometimes be in clients' best interests to refrain from voting. But in all other circumstances we endeavour to exercise our voting responsibilities on clients' behalf. For more information, please see our Voting Policy, available on our website.

Voting Overview*	
Number of companies available to vote	28
Number of available proposals	448
% voted	100%
% did not vote**	0%
% votes in line with management	91%
% votes against management	9%

Votes against management by topic (%)\*\*\*

- Audit/Financials 3%
- Board Related 48%
- Capital allocation 28%
- Compensation 15%
- Other 8%

\*\*\*May not sum to 100% due to rounding.

\*1st January 2025 to 31st December 2025

Source: Glass Lewis; Guinness Global Investors 31.12.25

\*\*This includes where we do not vote in jurisdictions where share blocking is in effect or power of attorney requirements apply

### Voting Case Studies

#### Tencent 腾讯

In May, we voted against the re-election of Li Dong Sheng to the board of **Tencent Holdings ("Tencent")**. Mr. Li, Chairman and CEO of TCL Technology Group, has served on Tencent's board for 21 years. At the time of the meeting, he sat on both the Remuneration and Nomination Committees and had attended fewer than 75% of board meetings during Tencent's fiscal year, exacerbating concerns that his external commitments may have limited his ability to fulfil his director duties.

Further, we were concerned by the insufficient independence of key board committees. Several members, including Mr. Li, had served on the board for over two decades - as such, we classified only one of the five members of the Nomination Committee, and no members of the Remuneration Committee, as independent non-executive directors ("iNEDs"). This falls short of Hong Kong Listing rules which require key board committees to be composed of a majority of iNEDs.

Approximately 17% of shareholders voted against Mr. Li's re-election, likely reflecting similar concerns.

**China Medical System ("CMS")** is a Chinese healthcare company focused primarily on the marketing and distribution of domestic pharmaceutical products. In April 2025, we voted against the re-nomination of Ms. Laura Luo Ying, the incumbent Chair of the Nomination Committee. Given her role as Nomination Committee Chair, we believe Ms. Luo should be accountable to shareholders for the appointment of independent board oversight.

While the Nomination Committee was composed of a majority of independent directors, in line with Hong Kong listing requirements, the board had yet to appoint a lead independent director ("LID") or an independent (vice-)chair. We believe that, at the company's current stage of maturity, CMS should consider introducing such a role. This is recognised as best practice under the Hong Kong Corporate Governance Code and can help strengthen board effectiveness, provide a clear figurehead among independent directors, and better represent minority shareholder interests.

Our concerns were likely shared by other investors, as 8% of shareholders voted against the director's re-election.

### Engagement

The investment team focused their engagements in 2025 around improved ESG disclosures from portfolio companies.

Engagement Overview*	
Number of company interactions	10
Number of engagements	10
Engagements by topic	
Environment	80%
Social	10%
Governance	0%
Strategy***	100%

\*1st January 2025 to 31st December 2025  
Source: Glass Lewis; Guinness Global Investors 31.12.25

\*\*In some cases, multiple topics are covered in a single meeting and the totals do not add up to 100%.  
\*\*\*Strategy includes disclosures, opportunities in sustainable products, positive impact, and regulation.

#### Engagement Case Studies

**Autohome** is a leading Chinese online automotive marketplace. In 2025, we participated in the CDP Non-Disclosure Campaign, which offers investors the opportunity to engage with companies that have received the CDP disclosure request but have not yet provided a response. The objective of the annual campaign is to drive further corporate transparency around climate change, deforestation, and water security. We were selected to act as lead signatory for Autohome, requesting the company submit to the latest CDP reporting cycle and emphasising the importance of transparency in climate-related disclosures. We were encouraged by our correspondence with the company and were pleased to see Autohome make a submission to the cycle. We look forward to continuing discussions with the company on enhancing environmental visibility and accountability.

Over 2025, we were pleased to join FAIRR, a collaborative investor initiative that supports engagement with food and agriculture companies on material sustainability risks. FAIRR has maintained a longstanding engagement programme with **Yili**, one of China's largest dairy producers, and helped coordinated a meeting with Yili at our London office, where we engaged the company on its sustainability strategy and key supply chain topics, including plastics, Scope 3 emissions, renewable energy, methane and deforestation.

Yili provided useful context on the evolving regulatory environment in China, including restrictions on recycled plastic use in food-grade packaging, and shared its efforts to progress packaging improvements over time. We also discussed the company's approach to strengthening Scope 3 emissions measurement and supplier engagement, its longer-term decarbonisation ambitions, and its deforestation-free commitments for key commodities. We welcomed the constructive dialogue and look forward to further engagement in 2026.

#### Collaborative engagement

We are a member of **CDP**, which allows us access to environmental data for all companies that report to CDP. Through our membership, we participate in collaborative engagements, such as the **CDP Non-Disclosure Campaign (NDC)**. The NDC aims to drive further corporate transparency around climate change, deforestation and water security, by encouraging companies to respond to CDP's disclosure requests.

## Initiatives

We participate in relevant industry initiatives to promote the proper functioning of markets, responsible investing, and the management of market-wide and systemic risk. Where appropriate, members of the investment team will use initiatives to engage collaboratively with portfolio companies.

### External company ratings

Signatory of:

We became signatories to the United Nations Principles for Responsible Investment (UN PRI) in 2019, which provides external assurance on our stewardship approach broken down by activity.

In our latest Assessment Report, published in 2024, we received the following scores:

**Policy Governance and Strategy**

**Direct – Listed Equity – Active Fundamental**

**Confidence Building Measures**

## Industry Initiatives

**CFA UK's** mission is to build a better investment profession by serving the public interest by educating investment professionals, by promoting and enforcing ethical and professional standards and by explaining what is happening in the profession to regulators, policymakers, and the media. A member of the investment team at Guinness is part of the Sustainability Community Champions group.

As the trade body for the UK investment management industry, the **Investment Association (IA)** seeks to represent the industry interests, improve the investment landscape through thematic initiatives, which highlight topics such as diversity and inclusion, and by improving standards and best practice.

The **Independent Investment Management Initiative (IIMI)** aims to contribute effective financial regulation and promote client-centred models of investment management. Our CEO, Edward Guinness sits on the board of IIMI.

The **UK Stewardship Code 2020** sets high stewardship standards for those investing money on behalf of UK savers and pensioners. It comprises a set of 12 'apply and explain' Principles for asset managers and asset owners to demonstrate their stewardship role and performance.

The **UK Sustainable Investment and Finance Association (UKSIF)** aims to support its members to grow sustainable and responsible finance in the UK. It also seeks to influence policymaking that promotes the growth of sustainable finance. Our Responsible Investment Lead is Chair of the Industry Development Committee, and another member of investment team serves on the Board of Directors and the Membership Committee.

The **FAIRR Initiative (FAIRR)** is a collaborative investor network that raises awareness of the material risks and opportunities in the global food sector. By providing research and coordinating engagement, it helps investors drive more sustainable practices in the agriculture and protein sectors.
