Fund ESG Ratings

MSCI ESG Rating™:

Produced by MSCI ESG Research as of 31.12.25.

SFDR Classification

Please see the fund's [Sustainability-related disclosures](#) and [SFDR Pre-contractual Disclosures](#), available on our website, for more information. [Periodic Reports](#) are also available.

Fund Profile

Benchmark

MSCI Golden Dragon

Investment Objective

An equity fund investing primarily in companies that are listed in Greater China or derive at least 50% of their revenues from business activities in the region.

Investment Case

Gives exposure to economic expansion and demographic trends in China and Taiwan. We believe that over the next twenty years China will experience rising incomes, the spread of wealth and the continuing expansion of its consumer market. This economic transition should lead to more sustainable growth than the industrial and infrastructure-led growth that China has already experienced.

Domicile

Ireland

Risks

Guinness Greater China Fund is an equity fund. Investors should be willing and able to assume the risks of equity investing. The Fund only invests in the Greater China region; it is therefore susceptible to the performance of that region, and can be volatile. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement; you may not get back the amount originally invested. For full information on the risks, please refer to the Prospectus, Supplement, and KID/KIID for the Fund, which are available on our website.

²Cluster munitions, landmines, and biological and chemical weapons.

³Companies that generate more than 30% of revenues via thermal coal extraction or thermal coal power generation.

ESG Integration Summary

ESG analysis is incorporated into investment decision-making on an ongoing basis, accompanied by a detailed review of each company. The review considers the Environmental, Social and Governance risks facing the company, the ways in which management mitigates them and their progress in doing so. The company's business is first assessed for the material risks posed by the industry and by the company's operations. The review consists of company-specific analysis of these material and relevant Environmental and Social risks. Regardless of industry, each company is assessed on carbon risk and employee relations, as well as Governance. Further information is available in the team's Approach to Responsible Investment and ESG paper, available [here](#).

Fund Weighted Average Carbon Intensity (WACI)* in tCO₂e/\$M revenue

The fund's carbon intensity is measured and reported over time.

Source: Guinness Global Investors, CDP; Coverage: 100% (2021, 2024, 2025), 90% (2022), 93% (2023).

*The Weighted Average Carbon Intensity (WACI) metric is calculated by multiplying the carbon intensity (emissions relative to revenue in millions USD) of each fund holding by its portfolio weight (the value of the holding relative to the total value of the portfolio, excluding cash). Carbon intensity is based on Scope 1 and 2 emissions. Scope 1 emissions are direct greenhouse gas emissions from sources that are owned or controlled by the company. Scope 2 emissions are indirect greenhouse gas emissions from the generation of energy purchased by the company (Reference: GHG Protocol). Coverage refers to the percentage of the carbon intensity data available at the date of publication for underlying fund holdings (as a percentage of total assets excluding cash).

Stewardship

Stewardship activities form part of the investment process applied by the team. We believe that resourcing our stewardship activities within the investment team itself, with dedicated assistance as required, is the best way to ensure effective stewardship. The investment team's ESG incorporation approach often informs their proxy voting and engagement activity. In a spirit of transparency, we disclose fund-level voting and engagement statistics and case studies for calendar year 2025 below.

Voting

The investment team make their own voting decisions based on their own research, supported by proxy voting research from Glass Lewis. All voting is undertaken by the investment team, with oversight provided by our Responsible Investment Committee. In order to vote, some markets require shares to be temporarily immobilised from trading until after the shareholder meeting has taken place (referred to as 'share blocking'). Some other markets require a local representative to be hired, under a Power-of-Attorney (POA), to attend the meeting and vote on our behalf. In such instances, it may sometimes be in clients' best interests to refrain from voting. But in all other circumstances we endeavour to exercise our voting responsibilities on clients' behalf. For more information, please see our Voting Policy, available on our website.

Voting Overview *	
Number of companies available to vote	29
Number of available proposals	553
% voted	100%
% did not vote**	0%
% votes in line with management	89%
% votes against management	11%

Votes against management by topic (%)***

- Audit/Financials 7%
- Board Related 29%
- Capital allocation 34%
- Compensation 10%
- Other 20%

***May not sum to 100% due to rounding.

*1st January 2025 to 31st December 2025

**This includes where we do not vote in jurisdictions where share blocking is in effect or power of attorney requirements apply

Voting Case Studies

Shenzhou International is a vertically integrated knitwear manufacturer based in Ningbo, China. We voted against resolutions seeking general authority to issue new shares without pre-emptive rights and to issue repurchased shares. While the company proposed a 10% issuance limit, which we considered reasonable, it did not disclose the maximum permissible discount at which new shares could be issued relative to the prevailing market price. Under Hong Kong regulations, companies may issue shares at a discount of up to 20%, which we believe is excessive and increases the risk of value dilution and suboptimal capital allocation.

Shareholder dissent at the 2025 AGM was significant, with approximately 33% and 35% voting against the resolutions to issue shares without pre-emptive rights and repurchased shares, respectively.

Tencent 腾讯

In May, we voted against the re-election of Li Dong Sheng to the board of **Tencent Holdings ("Tencent")**. Mr. Li, Chairman and CEO of TCL Technology Group, has served on Tencent's board for 21 years. At the time of the meeting, he sat on both the Remuneration and Nomination Committees and had attended fewer than 75% of board meetings during Tencent's fiscal year, exacerbating concerns that his external commitments may have limited his ability to fulfil his director duties.

Further, we were concerned by the insufficient independence of key board committees. Several members, including Mr. Li, had served on the board for over two decades - as such, we classified only one of the three members of the Nomination Committee, and no members of the Remuneration Committee, as independent non-executive directors ("INEDs"). This falls short of Hong Kong Listing rules which require key board committees to be composed of a majority of INEDs.

Approximately 17% of shareholders voted against Mr. Li's re-election, likely reflecting similar concerns.

Engagement

The investment team focused their engagements in 2025 around seeking improved ESG disclosures from portfolio companies. In December, members of the team travelled to China to visit some of the holdings in the fund.

Engagement Overview*	
Number of company interactions	12
Number of engagements	12
Engagements by topic	
Environment	75%
Social	17%
Governance	0%
Strategy***	100%

*1st January 2025 to 31st December 2025
Source: Glass Lewis; Guinness Global Investors (31.12.25)

**In some cases, multiple topics are covered in a single meeting and the totals do not add up to 100%.
***Strategy includes disclosures, opportunities in sustainable products, positive impact, and regulation.

Engagement Case Studies

INOVANCE

We began engaging with **Shenzhen Inovance Technology (“Inovance”)**, a Chinese industrial automation manufacturer, in May 2023 following an onsite meeting at the company’s offices. During this initial engagement we raised concerns about governance oversight, including the need for the Audit Committee to be fully independent, and encouraged the company to strengthen its board committee structure by establishing separate Nomination and Remuneration Committees. At the 2024 AGM, we escalated these concerns by opposing the appointment of Inovance’s Board Secretary, Zhu Xingming, to the Audit Committee on independence grounds, and voting against the insider Chair given the absence of key governance committees at the time.

We revisited Inovance in December 2025 and welcomed significant improvement in its governance framework. The company had established both a Nomination Committee and a Remuneration Committee, and the Audit Committee was now comprised entirely of independent directors, following the Board Secretary’s move from the Audit Committee to the newly established Remuneration Committee. We communicated that these changes represented meaningful progress towards stronger oversight and a more robust governance framework.

SUOFEIYA

Suofeiya Home Collection (“Suofeiya”) is a Chinese company that designs, produces and sells customised wardrobes and related furniture. We engaged with the company at its China offices in May 2024, encouraging improved climate reporting and pushing for disclosure of its carbon emissions. Suofeiya noted that it would likely require third-party support to assist in the emissions measurement and reporting process, which we encouraged it to pursue.

In Suofeiya’s 2024 ESG Report, released in September 2025, we were pleased to see the company disclose Scope 1 and Scope 2 emissions for seven Chinese production bases. We view this as an important first step towards building a more complete emissions inventory, particularly given increasing regulatory and stakeholder expectations for corporate climate disclosure in China.

We plan to continue engaging with Suofeiya in 2026, encouraging the company to expand and further develop its emissions reporting over time.

Collaborative engagement

We are a member of **CDP**, which allows us access to environmental data for all companies that report to CDP. Through our membership, we participate in collaborative engagements, such as the **CDP Non-Disclosure Campaign (NDC)**. The NDC aims to drive further corporate transparency around climate change, deforestation and water security, by encouraging companies to respond to CDP’s disclosure requests.

Initiatives

We participate in relevant industry initiatives to promote the proper functioning of markets, responsible investing, and the management of market-wide and systemic risk. Where appropriate, members of the investment team will use initiatives to engage collaboratively with portfolio companies.

External company ratings

Signatory of:

We became signatories to the United Nations Principles for Responsible Investment (UN PRI) in 2019, which provides external assurance on our stewardship approach broken down by activity.

In our latest Assessment Report, published in 2024, we received the following scores:

Policy Governance and Strategy

Direct - Listed Equity - Active Fundamental

Confidence Building Measures

Industry Initiatives

CFA UK's mission is to build a better investment profession by serving the public interest by educating investment professionals, by promoting and enforcing ethical and professional standards and by explaining what is happening in the profession to regulators, policymakers, and the media. A member of the investment team at Guinness is part of the Sustainability Community Champions group.

As the trade body for the UK investment management industry, the **Investment Association (IA)** seeks to represent the industry interests, improve the investment landscape through thematic initiatives, which highlight topics such as diversity and inclusion, and by improving standards and best practice.

The **Independent Investment Management Initiative (IIMI)** aims to contribute effective financial regulation and promote client-centred models of investment management. Our CEO, Edward Guinness sits on the board of IIMI.

The **UK Stewardship Code 2020** sets high stewardship standards for those investing money on behalf of UK savers and pensioners. It comprises a set of 12 'apply and explain' Principles for asset managers and asset owners to demonstrate their stewardship role and performance.

The **UK Sustainable Investment and Finance Association (UKSIF)** aims to support its members to grow sustainable and responsible finance in the UK. It also seeks to influence policymaking that promotes the growth of sustainable finance. Our Responsible Investment Lead is Chair of the Industry Development Committee, and another member of investment team serves on the Board of Directors and the Membership Committee.

The **FAIRR Initiative (FAIRR)** is a collaborative investor network that raises awareness of the material risks and opportunities in the global food sector. By providing research and coordinating engagement, it helps investors drive more sustainable practices in the agriculture and protein sectors.
