Risks

Guinness Best of Asia Fund is an equity fund. Investors should be willing and able to assume the risks of equity investing. The Fund only invests in the Asia region; it is therefore susceptible to the performance of that region, and can be volatile. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement; you may not get back the amount originally invested. For full information on the risks, please refer to the Prospectus, Supplement, and KID/KIID for the fund, which are available on our website.

Source: FE fundinfo net of fees to 28.02.26. Investors should note that fees and expenses are charged to the capital of the Fund. This reduces the return on your investment by an amount equivalent to the Ongoing Charges Figure (OCF). The current OCF is 0.77%. Returns for share classes with a different OCF will vary accordingly. Transaction costs also apply and are incurred when a fund buys or sells holdings. The performance returns do not reflect any initial charge; any such charge will also reduce the return.
