

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## TB Guinness Global Equity Income Y Inc

TB Guinness Global Equity Income Fund, a sub-fund of the TB Guinness Investment Funds Y Income shares GBP, ISIN: GB00BNGFN669  
The Authorised Corporate Director of this Fund is: T. Bailey Fund Services Limited.

### Objectives and investment policy

The Fund aims to provide investors with a combination of both capital growth and income over the long term (7 to 10 years).

At least 80% of the Fund will be invested in global equity securities of companies with a market capitalisation in excess of US\$1 billion. Such equity securities include shares, securities convertible into shares, and warrants. No more than 5% of the Fund will be invested in warrants.

The Fund is actively managed and will invest in companies anywhere in the world (including emerging markets). The Investment Adviser will invest in companies that it considers are profitable and have demonstrated persistently high returns on capital over the previous decade.

To the extent not fully invested in such companies, the Fund may invest in government and corporate bonds of at least investment grade rating (being bonds which have achieved or exceeded a minimum credit rating awarded by a credit rating agency) and up to 10% in collective investment schemes (which may include those managed by the ACD and its associates). The Fund may also hold cash, near cash and money market instruments and during adverse market conditions and/or to manage large cash flows, the Investment Adviser may hold a larger proportion of the Fund in these asset classes.

The Fund will have a concentrated portfolio and will typically hold between 20 and 40 stocks.

The Fund may use derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as “Efficient Portfolio Management”). It is intended that the use of derivatives will be limited.

Investors can redeem units on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK.

For income units, any income received is paid out to you quarterly. For accumulation units, any income received is reflected in the price of units.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a medium to long-term investment only.

### Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund’s ranking on the Risk and Reward Indicator.

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Fund is in the above risk category because it invests in global shares.
- The lowest category does not mean a fund is a risk free investment.
- The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.
- There is no guarantee that the Fund will meet its stated objectives.
- A limited number of investments may be held which has the potential to increase the volatility of performance.
- The Fund invests in emerging markets which may carry more risks than more developed jurisdictions.
- The movements of exchange rates may lead to further changes in the value of investments and the income from them.
- There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the Fund over a year

Ongoing charges	0.79%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	No
-----------------	----

- The ongoing charges figure is fixed at 0.79%
- It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.
- Ongoing charges are deducted from capital which will assist the income yield but may constrain capital growth.
- For details of the actual charges, please contact your financial adviser/distributor.

## Past performance

Source: FE fundinfo 2022

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 09/11/2020.
- Share/unit class launch date: 09/11/2020.
- Performance is calculated in GBP.
- Performance is shown inclusive of all charges, except entry charges.
- Performance is shown on a total return basis (on the basis that distributable income has been reinvested).

## Practical information
