#### ***Share Class Descriptions***

The below provides a description of the typical type of investor the Company, in conjunction with the Distributor, would expect to invest into each Share Class. These are not exhaustive descriptions. There are a wide range of valid reasons why an investor might be in a particular Share Class.

**Class C Shares: (Advised Platform Investors)** For investors whose financial intermediaries and/or platforms do not charge investors directly for the services they provide; commissions, rebates, platform and other fees may be paid by the Investment Manager where agreed with the relevant intermediary and/or platform and in accordance with applicable law.

**Class I Shares: (Institutional Shares)** For investors who can make an initial investment equal to or greater than US\$10 million; a rebate may be paid by the Investment Manager where agreed and in accordance with applicable law.

This share class is only available to EU investors who invest via a financial Intermediary if that financial intermediary is prohibited by the local laws or regulations applicable to them to receive and/or retain any commissions or other non-monetary benefits or who are approved by the Investment Manager or based on contractual arrangements with their clients.

**Class Z Shares: (Founder Shares)** The Class Z Shares are closed to new investors, subject to the discretion of the Company and the Investment Manager to determine otherwise.

#### 4. Fees and Expenses

All or part of the fees and expenses of the Fund may be charged to the capital of the Fund.

##### *Management Fee*

The Manager will pay to the Investment Manager out of the assets of the Fund a maximum fee as detailed above in Section 3. Classes (plus VAT, if any, thereon), accrued at each Valuation Point and payable monthly in arrears.

The fee for each Share Class is payable on the Net Asset Value of that Share Class at the rates detailed in Section 3. Classes.

The Investment Manager shall be responsible for paying the administrative expenses of the Fund, to include establishment costs, fees and expenses payable to the Manager, the Custodian, the Administrator, including transfer agency transaction fees, Directors fees, any Paying Agent appointed by or on behalf of the Company, and general administrative expenses, which include but are not limited to legal and other professional advisory fees, company secretarial fees, Companies Registration Office filings and statutory fees, regulatory fees, auditing fees, translation and accounting expenses, taxes and governmental expenses applicable to the Fund, costs of preparation, translation, printing and distribution of reports and notices, all marketing material and advertisements and periodic update of the Prospectus, stock exchange listing fees, all expenses in connection with registration, listing and distribution of the Fund and Shares issued or to be issued, all expenses in connection with obtaining and maintaining a credit rating for the Fund or Classes or Shares, expenses of Shareholders meetings, Directors' insurance premia, expenses of the publication and distribution of the Net Asset Value, clerical costs of issue or redemption of Shares, postage, telephone, facsimile and telex expenses and any other expenses in each case together with any applicable value added tax. Expenses directly attributable to the generation of additional income for the Fund will be paid out of any such additional income; this may include tax reclaim fees and stock lending fees.

The Investment Manager may decide to reimburse a Shareholder, intermediary, distributor or other person or otherwise provide any of them with a rebate or commission out of all or part of any fees paid to it by the Company in respect of a Class of Shares. The terms of any such reimbursement, rebate or commission are a matter solely between the Investment Manager and the relevant Shareholder, intermediary, distributor or other person, provided always that a condition of any such arrangement is that the Fund shall not incur any additional obligation or

liability whatsoever, and such arrangement is in accordance with applicable law.

#### *Global Distributor*

The Global Distributor shall be entitled to receive a distribution fee of up to 5% on subscription proceeds in respect of any Class C or Class Y Shares. Subject to, and in accordance with the requirements of the Central Bank, this fee may be waived in whole or in part at the discretion of the Global Distributor.

The fees of any sub-distributor appointed by the Global Distributor will be paid out of the portion of the fees payable to it for the distribution of Shares of the Fund.

For the avoidance of doubt, a distribution fee is not payable on the occurrence of an automatic conversion or merger of Shares from one Class to another Class.

### **5. Minimum Subscription**

The Minimum Subscription (*\*Initial Subscription*) limits are detailed above under the section headed "3. Classes".

Subject to and in accordance with the requirements of the Central Bank, the Directors reserve the right to differentiate between Shareholders and to waive or reduce the Minimum Subscription.

### **6. Classification of the Fund pursuant to the Sustainable Finance Disclosure Regulation (EU) 2019/2088 (the "SFDR")**

The Fund shall be classified as an Article 8 Fund pursuant to the SFDR.

### **7. Investment Objective**

The investment objective of the Fund is to provide investors with long-term capital appreciation.

### **8. Investment Policy**

In seeking to achieve its investment objective the Fund intends to invest primarily in a portfolio of global equities. The Fund seeks long-term capital appreciation through investment in companies that the Investment Manager deems to have innovation at the core of their business, i.e. companies which create or embrace new technology, ideas and processes in order to drive their growth.

The equity or equity related securities in which the Fund may invest include common stocks, preferred stocks, securities convertible into common stocks, rights and warrants. No more than 5% of the Net Asset Value of the Fund will be invested in warrants. The securities in which the Fund may invest will be listed or traded on a Recognised Exchange.

The Fund may invest in excess of 20% of its Net Asset Value in emerging markets.

Under normal market conditions the Fund intends to invest in at least 20 stocks. The Investment Manager may invest the Fund's assets in securities of companies with a wide range of market capitalizations and in companies domiciled throughout the world. The bulk of the Fund's investments will however be concentrated in liquid shares of companies with a market capitalisation in excess of \$500mn, however, the Fund may invest in liquid shares of companies with a market capitalisation of less than \$500mn.

The philosophy of the Fund is to remain invested. In order to comply with the requirements of the German Investment Tax Act, the Fund will invest at least 51% of the Fund's Net Asset Value at any time in equities which are listed on a stock exchange or traded on a regulated market. The term "equities" in this context does not include units or shares of investment funds, real estate investment trusts (REITs) or depositary receipts. When current market, economic, political or other conditions are unstable and would impair the pursuit of the Fund's investment objective, the Fund may temporarily invest up to 49% of its assets in cash, cash investments such as bank deposits and certificates of deposit or high quality investment grade short-term money market instruments (including, but not limited to, commercial paper and treasury bills), and in fixed and/or floating rate corporate and/or government bonds of investment grade rating. The Fund will not invest in bonds, be they investment grade or with a credit quality below "speculative grade", nor will the Fund invest in asset backed securities (ABS) or similar assets with a credit quality of investment grade or below investment grade. When the Fund takes a temporary defensive position, the Fund may not achieve its investment objective.

The Fund may invest in China A shares listed on the Shanghai Stock Exchange via the Shanghai Hong Kong Stock Connect scheme, or the Shenzhen Stock Exchange via the Shenzhen Hong Kong Stock Connect scheme (as further described in the section headed "Stock Connect Scheme" in the Prospectus).

The financial derivative instruments which the Fund may utilise include futures, options and forward foreign exchange contracts (details of which are set out in the section of the Prospectus headed "Financial Derivative Instruments and Techniques for Efficient Portfolio Management") for efficient portfolio management purposes, hedging purposes, to reduce portfolio risk or to obtain in a more efficient way exposure that would otherwise be obtained by direct investment in equity securities in accordance with the investment objective and policies above, and as further detailed below. The leveraged exposure of the Fund through the use of derivatives will not exceed 100% of the Net Asset Value of the Fund, as measured using the commitment approach in accordance with the UCITS Regulations. It is expected that the use of financial derivative instruments for efficient portfolio management purposes, hedging purposes and to indirectly gain exposure to underlying equity and/or equity related securities where the Investment Manager feels it is more efficient to do so, will actively reduce the risk profile of the Fund.

Futures and options may be used to hedge against downward movements in the value of the Fund's portfolio, either by reference to specific securities (i.e. equity or equity related securities) or markets to which the Fund may be exposed. These derivative instruments may also be used to reduce the Fund's direct exposure to equity or equity related securities or markets on a short

or medium term basis where it is more efficient to use derivatives for this purpose, or to gain indirect exposure to equity or equity related securities where the Investment Manager feels that such use of financial derivative instruments is in the best interests of the Fund.

Forward foreign exchange contracts will only be used for hedging purposes or to alter the currency exposure of the underlying assets in accordance with the limits set out by the Central Bank. The Fund will not be leveraged as a result of engaging in forward foreign exchange contracts.

The Fund may enter into stocklending and repurchase/reverse repurchase agreements for efficient portfolio management purposes only, subject to the conditions and limits set out in the Central Bank UCITS Regulations. The maximum exposure of the Fund in respect of stocklending and repurchase/reverse repurchase agreements shall be 30% of the Net Asset Value of the Fund. However, the Investment Manager does not anticipate that the Fund's exposure to stocklending and repurchase/reverse repurchase agreements will exceed 0%- 20% of the Net Asset Value of the Fund. The types of assets that will be subject to stocklending and repurchase/reverse repurchase agreements will be equity and equity related securities.

The Fund is considered to be actively managed in reference to the MSCI World Index (the "Benchmark") by virtue of the fact that it uses the Benchmark solely for performance comparison purposes. The Benchmark is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmark. Shareholders' attention is drawn to the fact that the Index is not an index which integrates environmental and social considerations.

### ***Investment Strategy***

Investments are selected using a combination of analysis of economic and market factors, screening the investible universe for key identifiers of quality, value, earnings trend and price momentum, and detailed analysis of the underlying business. From this the Investment Manager develops high conviction investment ideas which produce relatively low Fund portfolio activity.

The Fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. In that respect, the Investment Manager assesses the sustainability of each investment, including environmental, social and governance (ESG) factors including, but not limited to, material environmental, social, human capital, business model, and governance factors, management remuneration and incentivisation, and carbon intensity and carbon transition risk, alongside traditional financial metrics. The Investment Manager may invest in issuers with improving sustainability factors and may engage with such issuers, for example, discussing ESG issues with companies to improve their handling, including disclosure, of ESG issues.

In identifying investments which allow the Fund to promote environmental or social characteristics, the Investment Manager adopts the following strategies:

The Investment Manager assesses the environmental and social credentials of businesses, and their governance practices, in particular with respect to specific material ESG factors and overall

disclosure through qualitative and quantitative analysis of company and third-party data. Such assessments are ultimately designed to aid evaluation of a company's competitive advantages, growth drivers, profitability, and exposure to material risks alongside traditional financial metrics.

The Investment Manager analyses how well a company manages its material ESG exposures. For the environmental and social categories, the Investment Manager evaluates factors specific to the company's industry and for the governance category, the Investment Manager evaluates a company with consideration to regional norms.

The Fund will not invest in companies as per the Investment Manager's exclusion policy, including those that are directly involved in the design, manufacture or sale of cluster munitions and anti-personnel mines, and companies that generate more than 30% of their revenues via thermal coal extraction or thermal coal power generation.

The Investment Manager assesses an issuer's corporate governance with reference to three key areas; the issuer's management incentives, the issuer's board effectiveness, and the issuer's ownership and control. These areas are assessed by the Investment Manager using company and third-party data.

The Investment Manager monitors compliance with the environmental, social and governance characteristics outlined above on a regular basis through ongoing monitoring of key indicators using company and third-party data providers.

Further information on the Investment Manager's responsible investment policy can be found on <https://www.guinnessfunds.com/wp-content/uploads/2021/04/2021-Guinness-Asset-Management-Annual-Report-and-Policy-on-Responsible-Investment.pdf>

## **9. Hedged Share Classes**

With respect to hedged Share Classes, being those classes with the word "Hedged" in the share class name, the Investment Manager intends to hedge up to 100% of the Net Asset Value of each hedged Share Class into the Base Currency of the Fund. All costs and gains or losses of hedging transactions attributable to a specific Share Class will be borne by that Share Class. The intention is that the returns of a hedged Share Class expressed in the currency of that Share Class are approximately equivalent to the returns of an unhedged Share Class expressed in Base Currency terms less any costs associated with hedging and any impact of the hedged value not exactly matching the Net Asset Value, however there can be no guarantee that this will be successfully achieved. Please refer to the section of the Prospectus headed "Hedged Classes" for further details.

## **10. Offer**

C CNH Hedged Distribution Shares in the Fund will be offered from 9.00am (Irish Time) on 5<sup>th</sup> April, 2022 to 3.00pm (Irish Time) on 5<sup>th</sup> October, 2022 (the "initial offer period") at the Initial Price and subject to acceptance of applications for Shares by the Company will be issued for the first time on the first Dealing Day after expiry of the initial offer period. The initial offer period

may be shortened or extended by the Directors. The Central Bank will be notified in advance of any such shortening or extension if subscriptions for Shares have been received and otherwise on an annual basis.

After closing of the initial offer period C CNH Hedged Distribution Shares in the Fund will be issued at the Net Asset Value per Share.

All other Shares in the Fund are being issued at the Net Asset Value per relevant Share Class.

## **11. Application for Shares**

Applications for Shares may be made through the Administrator (whose details are set out in the Application Form). Applications accepted and received by the Administrator prior to the Dealing Deadline for any Dealing Day will be processed on that Dealing Day. Any applications received after the Dealing Deadline for a particular Dealing Day will be processed on the following Dealing Day unless the Directors in their absolute discretion otherwise determine to accept one or more applications received after the Dealing Deadline for processing on that Dealing Day provided that such application(s) have been received prior to the Valuation Point for the particular Dealing Day. Applications received after the Dealing Deadline but prior to the Valuation Point will only be accepted in exceptional circumstances as determined and agreed by the Directors, and having regard to the equitable treatment of Shareholders.

Initial applications should be made using an Application Form obtained from the Administrator and may be sent by post or alternatively by telefax or email, without a requirement to submit an original Application Form, together with such other papers (such as documentation relating to money laundering prevention checks) as may be required by the Directors or their delegate. No redemptions will be processed until the Application Form and such other papers as may be required by the Directors have been received and all anti-money laundering procedures have been completed. Subsequent applications to purchase Shares following the initial subscription may be made to the Administrator by telefax or email or such other means as may be permitted by the Directors without a requirement to submit original documentation and such applications should contain such information as may be specified from time to time by the Directors or their delegate. Subscription monies, representing less than 01 of a Share will not be returned to the investor but will be retained by the Company in order to defray administration costs.

### *Method of Payment*

Subscription payments net of all bank charges should be paid by CHAPS, SWIFT or telegraphic or electronic transfer to the bank account specified in the Application Form enclosed with this Prospectus. ### *Currency of Payment*

Subscription monies are payable in the currency of denomination of the relevant Share Class. However, subscriptions may be made in any freely convertible currency accepted by the Administrator but will be converted into the currency of denomination of the relevant Share Class at the rate of exchange available to the Administrator. The cost of conversion shall be deducted from the monies subscribed by an investor and the amount remaining will then be invested in Shares. The attention of investors is drawn to the fact that the value of Shares subscribed for in a currency other than the currency of denomination of the relevant Share Class will be subject to exchange rate risk in relation to the relevant currency of denomination.

### *Timing of Payment*

Payment in respect of subscriptions must be received in cleared funds by the Administrator no later than 3 Business Days after the relevant Dealing Day provided that the Company reserves the right to defer the issue of Shares until receipt of cleared subscription monies by the Fund. If payment in cleared funds in respect of a subscription has not been received by the relevant time, the Manager or its delegate may (and in the event of non-clearance of funds, shall) cancel the allotment and/or charge the investor interest based on the Sterling Overnight Index Average (SONIA) as fixed by the Bank of England + 1.5% for the relevant subscribed currency, which will be paid to the Manager together with an administration fee of Stg£100, or its relevant subscribed currency equivalent. The Company may waive either of such charges in whole or in part. In addition, the Manager has the right to sell all or part of the investor's holding of Shares in the Fund or any other Fund of the Company in order to meet such charges.

### **Confirmation of Ownership**

Confirmation of each purchase of Shares will be sent to Shareholders within 48 hours of the purchase being made. Confirmation will normally be dispatched by email or facsimile where the relevant and proper contact details have been provided to the Administrator, or alternatively by post at the discretion of the Administrator. Title to Shares will be evidenced by the entering of the investor's name on the Company's register of Shareholders and no certificates will be issued.

## **12. Redemption of Shares**

Requests for the redemption of Shares should be made to the Administrator whose details are set out in the Application Form on behalf of the Company by way of a signed application form, or facsimile, or written communication, or email, or such other means as may be permitted by the

Directors and should include such information as may be specified from time to time by the Directors or their delegate. Requests for redemption received prior to the Dealing Deadline for any Dealing Day will be processed on that Dealing Day. Any requests for redemption received after the Dealing Deadline for a Dealing Day will be processed on the next Dealing Day unless the Company in its absolute discretion determines otherwise. Redemption requests received after the Dealing Deadline but prior to the Valuation Point will only be accepted in exceptional circumstances as determined and agreed by the Directors, and having regard to the equitable treatment of Shareholders. Redemption requests will only be accepted for processing where cleared funds and completed documents including documentation relating to money laundering prevention checks are in place from original subscriptions. No redemption payment will be made from an investor holding until the subscription application form and all documentation required by or on behalf of the Company (including any documents in connection with anti-money laundering procedures) has been received from the investor and the anti-money laundering procedures have been completed.

The redemption price per Share shall be the Net Asset Value per Share.

#### *Method of Payment*

Redemption payments following processing of instructions received by telefax will only be made to the bank account detailed on the Application Form or as subsequently notified to the Administrator in writing.

#### *Currency of Payment*

Shareholders will normally be repaid in the currency of denomination of the relevant Share Class. If, however, a Shareholder requests to be repaid in any other freely convertible currency, the necessary foreign exchange transaction may be arranged by the Administrator (at its discretion) on behalf of the Shareholder and the cost of conversion shall be deducted from the redemption proceeds payable to the Shareholder.

#### *Timing of Payment*

Redemption proceeds in respect of Shares will be paid within 5 Business Days of the Dealing Deadline for the relevant Dealing Day provided that all the required documentation has been furnished to and received by the Administrator.

#### *Withdrawal of Redemption Requests*

Requests for redemption may not be withdrawn save with the written consent of the Company or its authorised agent or in the event of suspension of calculation of the Net Asset Value of the Fund.

### **14. Dividends and Distributions**

#### ***Accumulation Shares***
