Guinness Global Investors is an independently owned investment management business providing actively managed portfolios across a selection of asset classes, including equity income, growth and specialist thematic equity funds and venture investments.

Guinness's in-house economic, industry and company research allows the fund managers to take an objective view and not be led by the market, combining strategic sector-selection with a fundamental screening process to identify stock opportunities. Guinness integrates analysis of ESG factors into the investment process.

Guinness's equally weighted funds are not benchmark-constrained, which means fund managers can select stocks without the influence of index weightings and have a high conviction about the stocks in their portfolio.

Guinness Global Investors is 100% owned by its directors and employees.
