Year end	31 December
Custodian	The Bank of New York Mellon (International) Limited

Risks

WS Guinness Sustainable Energy Fund is an equity fund. Investors should be willing and able to assume the risks of equity investing. The Fund invests only in companies involved in the sustainable energy sector; it is therefore susceptible to the performance of that one sector, and can be volatile. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement, you may not get back the amount originally invested. Details on the risk factors are included in the Fund's documentation, available on the website www.waystone.com. If you are in any doubt about the suitability of investing in this Fund, please consult your investment or other professional adviser.

Source: FE fundinfo to 31.03.24. Investors should note that fees and expenses are charged to the capital of the Fund. This reduces the return on your investment by an amount equivalent to the Ongoing Charges Figure (OCF). The current OCF for the share class used for the fund performance returns is 0.67%. Returns for share classes with a different OCF will vary accordingly. Transaction costs also apply and are incurred when a fund buys or sells holdings. The performance returns do not reflect any initial charge; any such charge will also reduce the return.

Top 10 holdings	%	Country	%	Sector	%
Eaton	4.7	USA	49.9	Equipment	23.4

Fund Profile

Aim

Long-term capital growth

Investment Case

Provides pureplay exposure to global renewable energy markets. We believe that over the next twenty years the sustainable energy sector will benefit from the combined effects of strong demand growth and improving economics of renewable energy supply. The sector will benefit from both public and private support for low carbon technologies.

Process

50% top down, 50% bottom up. Value bias in bottom-up stock selection.

Portfolio

Concentrated, typically equally-weighted portfolio of 30 positions. Majority of Fund invested in stocks over \$500m in size.

Investment Objective

An equity fund which invests in companies in the solar, wind, hydro, geothermal, biofuels, biomass and energy efficiency sectors. The Fund is actively managed and uses the MSCI World Index as a comparator benchmark only.

Share classes

Class	Currency	Acc/Dist	OCF	Maximum Initial Charge	ISIN	Bloomberg
Y ACC	GBP	Acc	0.67%	0%	GB00BP5J6198	TBGUSQQ LN

Other share classes at other fee structures and currencies exist. Not all share classes are registered for sale in all countries where the Fund is registered for sale.

◀ Lower Risk		SRI					Higher Risk ▶	
1	2	3	4	5	6	7		
Typically Lower Rewards					Typically Higher Rewards			

This indicator shows how much a fund has risen and fallen in the past, and therefore how much a fund's returns have varied. It is a measure of a fund's volatility. The higher a fund's past volatility the higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains. The lowest number on the scale does not mean that a fund is risk free. The fund has been classed as 6 because its volatility has been measured as above average to high.

Calendar Year Performance - Past performance does not predict future returns
